The police unearthed a regular coal-stealing conspiracy this morning, and as a result about ten native boys and seven Chinese are in the police station, the former for stealing coal from the piles on the city front and the latter for purchasing stolen goods. The police also captured 31 sacks of coal. The boys sold the coal to Chinese at 25 cents per sack.

SATURDAY, - SEPT. 21, 1895.

Merchants have a heavy interest in putting an end to the danger from cholera. Therefore, let every business house close up on Monday.

There is room for many new ventures to work on Monday. Register at the Citizens' Committee headquarters, Carter & Kinney's law office, right away.

It might be a good idea to have all personal clothing of passengers hence disinfected, for a month after all traces of the disease have disappeared. This precaution would make even Hilo feel easy.

In an interview elsewhere, a leading physician recommends the perpetual prohibition of fishing in the harbor. His advice ought to be carefully considered. Cholera or not, unwholesome food supplies should be stopped.

In protecting its meat products from a bad name in foreign markets, the United States is doing a good sanitary service to the foreign consumers. No ship carrying American meats from American ports can now get a clearance unless the meats are accompanied by a certificate of good quality from a Government inspector.

Intending shippers of freight by the W. G. Hall are anxious to know what decision the Board of Health has arrived at as to the shipping of freight under permits to all the Kona ports. It is to be hoped the Board will show its authority and not allow the Hilo junta to bulldoze the Kona people. Instructions ought to be sent to the Deputy Sheriff to obey the law from headquarters in Honolulu.

It is to be hoped that everybody will assist in the general cleansing and disinfecting on Monday. If no more cases of cholera develop before that work is accomplished, the chances are that the germs of the disease will have been completely extirpated by those operations so far as the living quarters of the town are concerned. One important matter seems to have been overlooked, however, by the sanitary authorities. That is, the rough fumigation of all merchandise landed here from the Belgic, in the stores of all the consignees according to the Custom House records.

Band Concert Today.

2. Overture—"Son and Stranger".....
3. Waltz—"Beaux Jours".....Fahrbach
4. Lancers—"The Sultan of Mocha".....Roeder
5. Mazurka—"Clematis".....Kaprey
6. Galop—"Jolly Fellows".....Faust

The notorious Jack Hall, of Bird Cage fame, was fined another \$100 and costs this morning for selling liquor without a license on August 27th. An appeal has been noted in both his cases.

O. H. Harlan and wife arrived on the Irwin and expect to locate here. Mr. Harlan has heretofore been engaged in the furniture and undertaking business in Chicago and Los Angeles. He is a professional embalmer and expert cabinet maker.

WERTHEIM

TRIPLE OR THREE-STITCH

Sewing Machine

This week we want to call the attention of the ladies of Honolulu and the Hawaiian Islands generally to the merits of the Wertheim Sewing Machine. This is provided with a Belgian invention by which three different stitches may be sewn according to the will of the operator. Whether the lady of the house wants a single chain stitch or a combined two-thread or embroidery stitch without in any way impairing the excellence of the machine as a lock-stitch one, is simply a matter of pressing a button, this machine does the rest. With this machine by simply pressing a button either a lock stitch, chain stitch or combined lock and chain stitch is produced as desired. In other words this one machine performs the work of three distinct ones, and not content with that can furnish in addition a beautiful darn in linen as well as woolen materials and underwear by means of its far reaching chain stitch, and the need of any special darning appliance is therefore avoided. To produce the chain stitch all that is necessary is to press down a button near the stitch regulator and move it from left to right and go right along with your sewing.

For dressmakers and those who have much making over to do, this machine is the best out. The chain-stitch is easily unraveled by undoing the last loop at the end of the seam, and although the embroidery stitch is just as firmly locked as the lock stitch and is much more elastic, yet it is easily undone. All the operator has to do is to draw out the interlaced shuttle thread and the chain stitch remains, which latter unravels easily as stated above. The machine can readily be changed from one stitch to another and back again to the ordinary lock stitch without any danger of getting out of order.

"Seeing is believing" is an old and true saying and we cordially invite all the ladies to come in and see this machine in actual operation in our store.

We have a large number of these elegant machines on hand and will sell them at reasonable prices. We guarantee them to do all that we advertise.

There are any number of ladies in this city whose hearts would be made glad by one of these machines in place of the antiquated ones they are now using, and if their husbands only knew what was good for themselves they would come right down to the store in the morning and order one sent home.
